3.4 (b) (4)

OUTDOOR HOUSING FACILITIES.

***Shelters in outdoor facilities for dogs or cats must contain a roof, four sides, and a floor, and must:
(4) Contain clean, dry, bedding material if the ambient temperature is below 50 [deg]F (10 [deg]C). Additional clean, dry bedding is required when the temperature is 35 [deg]F (1.7 [deg]C) or lower.***

Approx. 21 enclosures in the outside kennel areas have shelters that do not currently have bedding. Over night temperatures are expected to be below 35 degrees F. Bedding should be provided to all outside shelters to allow the dogs to conserve body heat. Affects approx. 33 adult dogs. To be corrected by: 03/03/10

3.11 (a)

CLEANING, SANITIZATION, HOUSEKEEPING, AND PEST CONTROL.

Excreta and food waste must be removed from primary enclosures daily, and from under primary enclosures as often as necessary to prevent an excessive accumulation of feces and food waste, to prevent soiling of the dogs or cats contained in the primary enclosures, and to reduce disease hazards, insects, pests and odors. When steam or water is used to clean the primary enclosure, whether by hosing, flushing, or other methods, dogs and cats must be removed, unless the enclosure is large enough to ensure the animals would not be harmed, wetted, or distressed in the process.

The areas beneath the wire runs of the hutch units has accumulations of fecal waste that should be removed. Accumulations should be removed to reduce odor, disease and pest hazards. Affects approx. 33 dogs. To be corrected by: 03/09/10

This inspection was conducted by the owners and Curt McGruder-ACI.

2.40 (a) (1)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

(a) Each dealer or exhibitor shall have an attending veterinarian who shall provide adequate veterinary care to its animals in compliance with this section.

(1) Each dealer and exhibitor shall employ an attending veterinarian under formal arrangements. In the case of a part-time attending veterinarian or consultant arrangements, the formal arrangements shall include a written program of veterinary care and regularly scheduled visits to the premises of the dealer or exhibitor

Program of vet care calls for an annual inspection by the vet of record. Last recorded on site was on 3/27/07 affecting 136 dogs. Correct by 1/2/09.

2.40 (b) (2)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

(b) Each dealer or exhibitor shall establish and maintain programs of adequate veterinary care that include:

(2) The use of appropriate methods to prevent, control, diagnose, and treat diseases and injuries, and the availability of emergency, weekend, and holiday care.

Licensee currently has a 250 ml bottle of penicillin with an expiration date of 08/07 & a 100 ml bottle of oxytocin with an expiration date of 01/08. All expired drugs needs to be removed from the vet cabinet & not used again affecting 136 dogs. Corect by 1/2/09.

2.75 (a) (1) (vi)

RECORDS: DEALERS AND EXHIBITORS.

(a)(1) Each dealer, other than operators of auction sales and brokers to whom animals are consigned, and each exhibitor shall make, keep, and maintain records or forms which fully and correctly disclose the following information concerning each dog or cat purchased or otherwise acquired, owned, held, or otherwise in his or her possession or

under his or her control, or which is transported, euthanized, sold, or otherwise disposed of by that dealer or exhibitor. The records shall include any offspring born of any animal while in his or her possession or under his or her control.

(vi) The official USDA tag number or tattoo assigned to a dog or cat under Sec. Sec. 2.50 and 2.54.

Upon inspection of the dog on hand sheets, currently licensee is micro chipping the dogs. Micro chip numbers were missing from approx. 20 dogs. All micro chip #s must be listed on the dog on hand sheets to meet USDA regulations. Correct by 1/2/09.

3.1 (c) (1) (ii)

HOUSING FACILITIES, GENERAL.

(c) Surfaces--(1) General requirements. The surfaces of housing facilities--including houses, dens, and other furniture--type fixtures and objects within the facility--must be constructed in a manner and made of materials that allow them to be readily cleaned and sanitized, or removed or replaced when worn or soiled. Interior surfaces and any surfaces that come in contact with dogs or cats must:

(i) Be free of excessive rust that prevents the required cleaning and sanitization, or that affects the structural strength of the surface; and

(ii) Be free of jagged edges or sharp points that might injure the animals.

Outside elevated hutches located to the east of the main facility. The metal dividers are rusted at the bottom & is showing missing, rusted & jagged metal at the bottom. Replacement of the rusted metal dividers needs to be done so that the dividers can be cleaned & sanitized & eliminate possible injury to 4 dogs. Correct by 1/2/09.

3.8

EXERCISE FOR DOGS.

Dealers, exhibitors, and research facilities must develop, document, and follow an appropriate plan to provide dogs with the opportunity for exercise. In addition, the plan must be approved by the attending veterinarian. The plan must include written standard procedures to be followed in providing the opportunity for exercise. The plan must be made available to APHIS upon request, and, in the case of research facilities, to officials of any pertinent funding Federal agency.

* Licensee could not find a current copy of the program of exercise. Left new copy to be filled out & signed by the vet of record affecting 136 adults. Correct by 1/2/09.

This is a transcribed copy of the original inspection report.
